

**SIMEC**

*25 years of advances  
in industrial automation*

SIMEC SRL is specialized in the design, manufacture and installation of machinery and equipment for the ceramic industry, both locally and abroad.

SIMEC SRL has been actively working for 25 years as one of the major suppliers of technologies for this sector and is constantly evolving to provide innovative solutions that meet the high quality standards and rapid changes imposed by customers and market demands.

SIMEC SRL offers wide-range experience in the design and implementation of mechatronic applications for any industrial sector, proposing products ranging from standard machines to highly customized systems, thought around the specific needs of the client.
